

The Complete Marine Asset Protection Solution

**Guard Vessel Patrol
and Offshore Support**

We strive to support maritime innovation that leads to safer, cleaner, and more efficient use of our global marine resources

For all of your big ideas, we can provide the structure to help them come to life

GVs and Offshore Support

Hand-picked vessels to build the ultimate bespoke protection plan.

What can we do for you

- Strategic spatial/temporal deployment, taking into account regional seasonality and vessel trends.
- Onsite presence for direct deterrent and interaction with errant vessels.
- Daily reporting for up-to-date comments on project progress and risk mitigation.
- Radar and visual data collection.
- Direct VHF contact available.
- Provision of chase vessels, installation project support vessels, survey vessels and more also available.
- We work closely with a number of international partners to ensure that we have access to the best GVs in your project

region, allowing us to make the perfect selection.

Key services

- Charter Hand-Picked GVs
- Tailored Strategic GV Deployment Plans
- Charter Offshore Support Vessels and Personnel

Our global outlook

50,000km

of assets monitored globally

5,000+

days of Guard Vessel deployment

100%

success in preventing cable breaks with GVs onsite
