

# The Complete Marine Asset Protection Solution

**Marine Liaison and  
Monitoring Services**

# We strive to support maritime innovation that leads to safer, cleaner, and more efficient use of our global marine resources

For all of your big ideas, we can provide the structure to help them come to life

## Dedicated Marine Liaison

Tailored advising built on decades of experience.

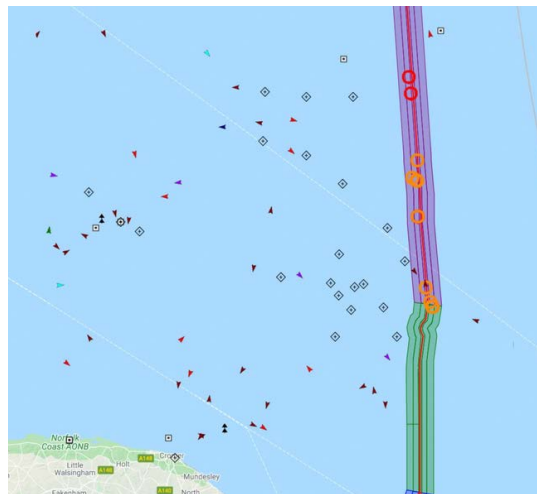

## What can we do for you

- Build long-term, healthy stakeholder relationships.
- Targeted asset awareness campaigns.
- Design, publication, and delivery of asset awareness materials.
- Regular port tours and site visits.
- Review and escalation of any high-level incidents.
- GIS data analysis on regional trends.
- Provide legal teams with recorded evidence.
- AIS Asset Monitoring to proactively monitor and protect subsea assets.
- Provision of onshore and offshore FLOs for survey, installation, and maintenance periods.

- One-on-one advising for specific projects and operations.
